

TO: Lebanon Transit Customers

DATE: December 11, 2020

Lebanon Transit is sharing the news that a Fixed Route Operator has tested positive for COVID-19.

Currently the employee is self-isolating at home in accordance with the guidelines established by the Pennsylvania State Health Department and the US Centers for Disease Control (CDC). Employees who were in close contact with the driver who tested positive have been notified and instructed on steps to monitor their health.

Lebanon Transit advises any customer who has concerns about the potential exposure to follow the Centers of Disease Control (CDC) guidelines and self-monitor for symptoms.

Lebanon Transit will continue to remain vigilant in minimizing the spread of the virus by:

- Sanitizing high touch areas of all vehicles throughout the day.
- Sanitizing all vehicles.
- Sanitizing vehicles with electrostatic fog.
- Hatches on vehicles are open (weather permitting).
- Mandatory Mask Policy for all employees and customers.
- Practicing social distancing.
- Monitoring employee's health.

Lebanon Transit will continue to inform customers on any new cases and updates on preventative measures as dictated from the CDC, PennDOT & FTA. Customers can find information on lebanontransit.org or at the 7th & Willow Transfer Station.
