Program Overview

Lebanon Transit is here to help you get where you need to go. Public transit systems across the nation have established the means to transport anyone regardless of disability, in compliance with the Americans with Disabilities Act (ADA) of 1990.

Shared Ride is a service where customers share the vehicle with others taking similar trips.

The ADA Complementary Program is a paratransit shared ride service provided for people with disabilities who cannot use the Fixed Route bus because of a disability.

Your trip origin **and** destination must be within 3/4 mile of a fixed bus route, excluding commuter routes.

With an approved ADA application, you may receive door-to-door service as needed rather than curb-to-curb service.
